

# Breast + Thorax Positioning

for accuracy, reproducibility + patient comfort

**CIVCO**<sup>®</sup>  
Radiotherapy  
a better way

The New Horizon Prone Breastboard assists in providing accessible, comfortable and reproducible patient positioning for prone breast treatments. The modular design and variety of accessories provide options for many prone breast setup challenges, allowing customized patient setups and meeting clinical needs for treatment.

### Additional New Horizon Features

- Overall height can be adjusted through the use of 3 cm spacers
- Unique only to the New Horizon board, the bridge and Clam-Lok™ provide additional positioning and immobilization options
- Reversible breast section allows for treatment of either breast with a simple 180° turn
- Three simple-to-separate parts allow for a lighter board and easier storage and transport from room to room

The unique curved board rises to meet the patient halfway for less climbing and safe positioning
