

FUTURA PLUS™

Hospital Bed

A Merivaara classic
in new shape

PATIENT WARD

New Futura Plus – improved ergonomics, usability and reliability

Merivaara's bestseller, the classic Futura Plus bed has been updated to provide even better comfort and reliability than before. The new Futura Plus also complies with the new medical bed standard IEC 60601-2-52. Futura Plus is available in a range of models with either electrical or manual adjustments. Designed and manufactured in Finland, it is a long-lasting, good-value bed for both hospital and nursing home use.

- Ergonomic
- Easy to use
- Reliable

Merivaara's Futura Plus has been appreciated by users in several countries for over 20 years. The updated version provides even better comfort and patient safety.

New features

- Sliding back section
- Trendelenburg and Quick Release handles are easier to use
- New frame structure
- Higher SWL than before
- Tested according to the new international medical bed standard by an independent testing laboratory
- Protected design and patented technology

Benefits

- Better comfort for the patient
- More convenient and ergonomic for caregivers
- Bed end accessories do not move with back section
- Can take heavier patients
- Improved patient safety and reliability
- Modern looks and unique features

As a safety feature, the bed has gas-spring assisted functions for Trendelenburg adjustment and quick release of the back section.

The 3-sectional bed enables various seating positions for different clinical needs, e.g. Fowler's position and cardiac patient care.

There are also optional accessories which help the patient move in and out of the bed by him/herself.

Novel features

The accessories attached to the head end do not move with the back section.

The new sliding back section provides better comfort for the patient. The bed comes with removable and easy-to-clean mattress base plates made of ABS plastic.

In the manually operated model, the back section can be adjusted with a gas-spring assisted handle.

The new Futura Plus bed features convenient brakes such as a braking bar for foot end and either two or four butterfly braking pedals above the castors. An optional foot pedal for adjusting the height is also available.

The new optional nurse panel allows the staff to limit the adjustment functions made by the patient.

The optional night light provides security also during dark hours.

An adjustment panel for the patient is available as an optional accessory.

The same panel also doubles as a convenient reading light.

Futura Plus Junior and other special configurations

You can still get the popular Junior bed in its traditional shape. For the Junior bed or other special configurations, contact Merivaara or your nearest Merivaara representative for further information.

Futura Plus Junior

- Mattress base size made for children
- Versatile functions
- Adjustable mattress base height
- Wide range of accessories
- Easy to clean

Solutions for efficient physical patient flow and well-being

Merivaara provides a wide range of hospital-grade furniture such as operating tables, medical lights, examination tables, trolleys and stretchers for transportation and day surgery, as well as birthing and patient beds. Additionally, our new concepts include both revolutionary integrated management systems and after-sales services.

Our versatile solutions and product offering enable convenient and cost-effective physical patient flow within the hospital, in day surgery and health clinics, as well as in nursing homes and home care. Our priority is to enhance comfort and well-being of both patients and their caregivers.

Established in 1901, Merivaara has more than 100 years of experience in designing and manufacturing hospital-grade furniture. Today our products are highly appreciated by users in more than 120 countries thanks to their ease-of-use, durability and ergonomic design.

Merivaara medical products are CE-labelled and the company's quality management system complies with EU directives for medical device. It is certified by DNV according to ISO 9001:2008 and ISO 13485:2003 standards. The company's environmental management system is ISO 14001:2004 certified.
