

500 lb
CAPACITY

FEATURES AND BENEFITS

- Clever, versatile design supports true one-person operation
- Patented steer lock enables wheels either to swivel or to lock into straight-line position
- Oversize wheels maximize mobility on all types of terrain
- Standard wheel locks help keep an unoccupied cot from rolling
- Ergonomic lift-and-grip design with color-coded controls provides unprecedented ease of use
- Safety release for loading mechanism helps eliminate accidental patient drops when loading
- Removable litter options provide versatility in patient transport
- Conforms to BS EN-1789 and AS/NZS 4535

ERGONOMIC LIFT-AND-GRIP DESIGN

HEAD END STEER LOCK SYSTEM
